

Annual Management Report of Fund Performance

For the Year Ended March 31, 2024

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by calling 1-888-746-6344 (1-800-661-4578 if you live in Quebec) or by writing to us at 447 Portage Avenue, Winnipeg, Manitoba, R3B 3H5 (2001, boulevard Robert-Bourassa, bureau 2000, Montreal (Quebec), H3A 2A6 if you live in Quebec), or by visiting the SEDAR+ website at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website at www.ig.ca.

References to "Consultant" or "Consultants" mean "Representative" or "Representatives" in Quebec.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of manager to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

IG MACKENZIE U.S. OPPORTUNITIES FUND II

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2024

Management Discussion of Fund Performance

June 6, 2024

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the Fund's performance and outlook in the year ended March 31, 2024 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "IGIM" and "the Manager" refer to I.G. Investment Management, Ltd., the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read *A Note on Forward-Looking Statements* on the first page of this document.

On February 16, 2023, the IG Wealth Management Funds' Independent Review Committee approved a proposal to wind up Investors Group Corporate Class Inc. and merge its suite of Corporate Class funds into corresponding trust fund equivalents because it was in a taxable position. As a result, investors holding securities of IG Mackenzie U.S. Opportunities Class (the "Predecessor Fund") were merged into the corresponding series of the Fund on a tax-deferred basis on May 19, 2023. The fees, the investment objective and strategies, and the portfolio management team of the Fund are substantially similar to those of the Predecessor Fund. Consequently the information in this report is presented as if the Fund had existed since the inception of the Predecessor Fund.

Effective May 19, 2023, all series of the Fund are closed to any new investment.

Investment Objective and Strategies

The Fund aims to provide long-term capital growth through exposure to common shares of mid-sized U.S. corporations by investing primarily in units of other IG Wealth Management Funds and/or directly in equity securities. Currently, the Fund invests in units of the IG Mackenzie U.S. Opportunities Fund (Underlying Fund). The Fund may also invest in companies based outside of North America and in fixed income securities as alternative investments to cash in times when equity valuations are believed to be too high.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for long-term investors looking for capital growth who intend to hold this investment as one component of a diversified investment portfolio and who have a medium tolerance for risk.

Results of Operations

Investment Performance

The performance of all series in the current and previous periods is shown in the *Past Performance* section of the report. Performance will vary by series primarily because fees and expenses differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.

For the year ended March 31, 2024, the Series F securities returned 12.8% (after deducting fees and expenses paid by the Fund). In comparison, the Fund's broad-based index, the S&P 500 Index, returned 30.0% and the Fund's narrow index, the Russell 2500 Index, returned 21.6%. Given the Fund's mandate, the narrow index has been included as a more meaningful comparison.

U.S. equities experienced volatility but ended the period on a positive note as moderating inflation and resilient economic growth provided a supportive backdrop. However, S&P 500 Index returns were concentrated, with mega-capitalization stocks significantly outperforming the broader index. Investor attention shifted to the timing of the U.S. Federal Reserve's expected transition from its recent cycle of interest rate increases to the rate cuts it has signalled for 2024.

Within the S&P 500 Index, communication services, information technology and financials were the strongest sectors in Canadian dollar terms, while utilities, consumer staples and real estate were the weakest.

U.S. small- and mid-capitalization stocks generally underperformed large-capitalization stocks. Within the Russell 2500 Index, industrials, energy and financials were the strongest sectors in Canadian dollar terms, while communication services, utilities and real estate were the weakest.

As at March 31, 2024, substantially all the net assets of the Fund were invested in IG Mackenzie U.S. Opportunities Fund (the Underlying Fund).

The Underlying Fund underperformed the broad-based index because of its focus on small- and mid-cap stocks, which underperformed the broader U.S. market over the period.

The Underlying Fund underperformed the narrow index, with stock selection in the health care, information technology and consumer discretionary sectors detracting from performance. Lack of exposure to the communication services and utilities sectors contributed to performance relative to the narrow index.

Over the period, the portfolio management team of the Underlying Fund reduced the portfolio's sensitivity to the economic cycle by decreasing exposure to the consumer discretionary sector in response to the strain interest rates have put on consumers.

Net Assets

The Fund's net assets increased by 47.7% during the period to \$128.2 million. This change was composed primarily of \$15.8 million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and an increase of \$25.6 million due to net securityholder activity (including sales, redemptions and cash distributions). The securityholder activity includes an inflow of \$50.7 million relating to fund merger activity (see *Recent Developments*).

Fees and Expenses

The management expense ratio ("MER") for each series during the year ended March 31, 2024, was generally similar to the MER for the year ended March 31, 2023. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the *Financial Highlights* section of this report.

IG MACKENZIE U.S. OPPORTUNITIES FUND II

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2024

Recent Developments

The U.S. economy remained strong over the period, due in part to large fiscal stimulus, the drawing down of excess savings accumulated during the pandemic and the delayed impact of higher mortgage rates.

Over the period, the portfolio management team of the Underlying Fund capitalized on market declines by reinvesting in high-growth businesses with more appealing valuations in an environment of labour shortages, rising inflation and tighter monetary policy. The team maintained a focus on companies that use intellectual property, data and technology to enhance productivity for themselves and their customers.

Other Developments

With the approval of the IG Wealth Management Funds Independent Review Committee, the Predecessor Fund merged into the Fund on May 19, 2023.

Effective May 3, 2024, Series A was redesignated as Series B; and effective May 10, 2024, Series J DSC was redesignated as Series J NL.

Related Party Transactions

I.G. Investment Management, Ltd. is the Manager, Trustee and Portfolio Advisor of the Fund. The Fund is offered through the Consultants of Investors Group Financial Services Inc. and Investors Group Securities Inc., together referred to as the Distributors. The Manager, Portfolio Advisor, Distributors and Trustee are, indirectly, wholly owned subsidiaries of IGM Financial Inc.

The following sub-advisor provided investment services to the Underlying Fund:

- Mackenzie Financial Corporation

Mackenzie Financial Corporation is a wholly owned subsidiary of IGM Financial Inc.

The Fund paid a management fee to the Manager and Portfolio Advisor for management and portfolio advisory services (see *Management Fees*).

The Fund also paid the Manager an administration fee and in exchange the Manager paid the operating costs and expenses of the Fund, except for certain specified costs.

The Fund paid the Distributors a service fee as compensation for providing or arranging for the provision of services to the Fund, including the issue or allotment of securities.

The Trustee is responsible for the overall direction of the affairs of the Fund. The Fund paid the Trustee a fee for its services.

See *Fund Formation and Series Information* for the annual rates paid by each series (as a percentage of average net assets) for these fees.

Securityholders in Series F also pay an advisory fee directly to the Distributors. This fee is not included in the Fund's expenses.

During the period, the Fund invested substantially all of its assets in another IG Wealth Management Fund. There is no duplication of fees incurred by the Fund in connection with these investments.

The Manager relied on an approval issued by the IG Wealth Management Funds Independent Review Committee to proceed with the merger of the Predecessor Fund into the Fund on May 19, 2023.

Past Performance

The Fund's performance information assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

The past performance before May 19, 2023, is based on the performance of the applicable series of the Predecessor Fund, which was merged into the corresponding series of the Fund on that date.

Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

IG MACKENZIE U.S. OPPORTUNITIES FUND II

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2024

Annual Compound Returns

The following table compares the historical annual compound total returns for each series of the Pool with the relevant index or indices shown below for each of the periods ended March 31, 2024. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.

All index returns are calculated in Canadian dollars on a total return basis, meaning that all dividend payments, interest income accruals and interest payments are reinvested.

Percentage Return: ¹	1 Yr	3 Yr	5 Yr	10 Yr	Since Inception ²
Series A	11.1	0.7	4.5	7.2	n/a
Series B	11.1	0.6	4.5	7.2	n/a
Series F	12.8	2.2	6.1	8.8	n/a
Series J DSC	11.4	0.9	4.8	7.5	n/a
Series J NL	11.4	0.9	4.8	7.5	n/a
S&P 500 Index*	30.0	14.3	15.4	15.3	n/a
Russell 2500 Index	21.6	5.6	10.2	11.1	n/a

* Broad-based index

The S&P 500 Index is a market capitalization weighted index of 500 widely held securities, designed to measure broad U.S. equity performance.

The Russell 2500 Index measures the performance of the small- to mid-cap segment of the U.S. equity universe. The index is a subset of the Russell 3000 Index and includes approximately 2,500 of the smallest securities based on a combination of their market capitalization and current index membership.

- (1) The percentage return differs for each series because the management fee rate and expenses differ for each series.
- (2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for each of the fiscal periods presented below. If during the period a series was established or reinstated, "period" represents the period from inception or reinstatement to the end of that fiscal period. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

The financial information before May 19, 2023, is based on the performance of the applicable series of the Predecessor Fund, which was merged into the corresponding series of the Fund on that date.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

The Fund pays a management fee, and this fee, paid by each series, is calculated as a percentage of the net asset value of the series at the close of each business day (see *Fund Formation and Series Information* for rates payable by each series). Generally, management fees pay the costs incurred to provide investment advisory and management services, as well as distribution-related services provided by the Distributors.

However, in the case of Series F, securityholders pay the Distributor an advisory fee (separate from the management fee) directly. Therefore, the management fee in that series is used for investment advisory and management services only.

For all other retail series (i.e. those that exclude Series R, P and S, if issued), approximately 61% of management fees paid during the period was used for investment advisory and management services, and approximately 39% related to distribution-related services. This may vary by series.

IG MACKENZIE U.S. OPPORTUNITIES FUND II

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2024

Fund Formation and Series Information

Date of Formation of IG Mackenzie U.S. Opportunities Class: October 15, 2002

Series	Inception/ Reinstatement Date	Management fee (%)	Service fee (%)	Administration fee (%)	Trustee fee (%)
Series A	October 24, 2002	1.85	0.30	0.18	0.05
Series B	October 24, 2002	1.85	0.30	0.18	0.05
Series F	July 12, 2013	0.75	–	0.18	0.05
Series J DSC	July 13, 2012	1.60	0.30	0.18	0.05
Series J NL	July 13, 2012	1.60	0.30	0.18	0.05

The fee rates in the table above are rounded to two decimals.

These are the inception dates of the applicable series of the Predecessor Fund.

Effective May 3, 2024, Series A was redesignated as Series B; and effective May 10, 2024, Series J DSC was redesignated as Series J NL.
