

## **Interim Management Report of Fund Performance**

*For the Six-Month Period Ended September 30, 2023*

*This Interim Management Report of Fund Performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You may obtain a copy of the interim financial report or annual financial statements, at no cost, by calling 1-888-746-6344 (1-800-661-4578 if you live in Quebec) or by writing to us at 447 Portage Avenue, Winnipeg, Manitoba, R3B 3H5 (2001, boulevard Robert-Bourassa, bureau 2000, Montreal (Quebec), H3A 2A6 if you live in Quebec), or by visiting the SEDAR+ website at [www.sedarplus.ca](http://www.sedarplus.ca).*

*Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.*

*For the Fund's current net asset values per security and for more recent information on general market events, please visit our website at [www.ig.ca](http://www.ig.ca).*

*References to "Consultant" or "Consultants" mean "Representative" or "Representatives" in Quebec.*

### **A NOTE ON FORWARD-LOOKING STATEMENTS**

*This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of manager to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.*

*The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.*

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2023

## Management Discussion of Fund Performance

November 13, 2023

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the Fund's performance and outlook in the six-month period ended September 30, 2023 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "IGIM" and "the Manager" refer to I.G. Investment Management, Ltd., the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read *A Note on Forward-Looking Statements* on the first page of this document.

## Results of Operations

### Investment Performance

In accordance with National Instrument 81-106, the following comparison to one or more market indices has been included to help you understand the Fund's performance relative to the general performance of the markets. However, the portfolio management team cautions that the Fund's mandate may be different from the index or indices shown. Also, it is important to note that investors cannot invest in an index. Indirect investments in an index are available; however, there are fees and transaction costs and other variables that will impact returns when investing in these products. Index returns included in the comparison below do not reflect these costs and variables. In addition, unlike the index, this Fund may be subject to valuation adjustments as outlined in the Fund's valuation policies as it relates to non-North American equities held either directly or indirectly by the Fund. A fair value adjustment can either positively or negatively impact the Fund's rate of return.

For longer-term performance of the Fund, see the *Past Performance* section of this report.

For the six-month period ended September 30, 2023, the Series F securities returned -1.1% (after deducting fees and expenses paid by the Fund). In comparison, the MSCI World (Net) Index (Local) returned 4.3%, and the ICE BofA Global Broad Market (Hedged) Index USD returned -2.5%.

Global equities rose over the period as central banks slowed the pace of their interest rate increases. The global economy proved resilient, and employment remained strong. With high inflation persisting, the U.S. Federal Reserve, European Central Bank and Bank of England raised their policy rates, albeit at a slower pace. In response, global fixed income yields moved higher, while bond prices fell. Global corporate bond prices declined but outperformed government bonds, with credit spreads (the difference in yield between corporate and government bonds) narrowing.

Within the MSCI World (Net) Index, Japan, Norway and Italy were the strongest-performing markets in local currency terms, while Hong Kong, Finland and New Zealand were the weakest. The communication services, energy and information technology sectors were the strongest performers, while utilities, consumer staples and real estate were the weakest.

The equity portion of the Fund underperformed the equity index, with overweight exposure to Canada and stock selection in the United States detracting from performance. In sector terms, an underweight position and stock selection in information technology and stock selection in financials detracted from performance. Stock selection in the health care sector contributed to performance.

The fixed income portion of the Fund underperformed the fixed income index, with security selection among corporate bonds in the financial and real estate sectors detracting from performance. Underweight exposure to municipal bonds also

detracted from performance. Conversely, holdings in government bond futures and term loans contributed to performance, as did underweight exposure to federal bonds.

Over the period, neither portfolio activity nor market developments significantly changed the positioning of the Fund.

### Net Assets

The Fund's net assets increased by 21.7% during the period to US\$4.4 million. This change was composed primarily of US\$0.1 million in net losses (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and an increase of US\$0.8 million due to net securityholder activity (including sales, redemptions and cash distributions).

### Fees and Expenses

The annualized management expense ratio ("MER") for each series during the period ended September 30, 2023, was generally similar to the annualized MER for the year ended March 31, 2023. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the *Financial Highlights* section of this report.

### Recent Developments

The portfolio management team believes that in periods of elevated volatility, it is most important to focus on what can be controlled. In response to higher levels of inflation and market volatility, the team continued to identify holdings for the portfolio in a diversified collection of companies that have the ability to raise prices without reducing demand for their products and/or that have business models with a competitive advantage.

Although the team believes the Bank of Canada is getting closer to its longer-term target rate, the team expects interest rates to remain at elevated levels for longer than initially expected. The team also expects economic growth to slow because of the impact of earlier central bank rate increases.

### Related Party Transactions

I.G. Investment Management, Ltd. is the Manager, Trustee and Portfolio Advisor of the Fund. The Fund is offered through the Consultants of Investors Group Financial Services Inc. and Investors Group Securities Inc., together referred to as the Distributors. The Manager, Portfolio Advisor, Distributors and Trustee are, indirectly, wholly owned subsidiaries of IGM Financial Inc.

The following sub-advisor provided investment services to the Fund:

- Mackenzie Financial Corporation

Mackenzie Financial Corporation is a wholly owned subsidiary of IGM Financial Inc.

The Fund paid a management fee to the Manager and Portfolio Advisor for management and portfolio advisory services (see *Management Fees*).

The Fund also paid the Manager an administration fee and in exchange the Manager paid the operating costs and expenses of the Fund, except for certain specified costs.

The Trustee is responsible for the overall direction of the affairs of the Fund. The Fund paid the Trustee a fee for its services.

See *Series Information* for the annual rates paid by the Fund (as a percentage of average net assets) for these fees.

Securityholders in Series F also pay an advisory fee directly to the Distributors. This fee is not included in the Fund's expenses.

# IG MACKENZIE U.S. DOLLAR FUND — GLOBAL EQUITY BALANCED

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2023

During the period, the Fund invested in other funds also managed by the Manager or affiliates of the Manager. At September 30, 2023, the Fund had US\$1.4 million (31.4% of the Fund's NAV) invested in underlying funds managed by Mackenzie. The Manager relied on standing instructions approved by the IG Wealth Management Funds Independent Review Committee for the execution of all such transactions.

Investment, if any, in unlisted open-ended funds managed by the Manager and/or affiliates of the Manager will be in series that do not pay fees. The exchange-traded funds (ETFs) into which the Fund may invest may have their own fees and expenses which reduce the value of the ETF. Generally, the Manager has determined that fees paid by an ETF are not duplicative with the fees paid by the Fund. However, where the ETF is managed by Mackenzie Financial Corporation, the ETF may distribute a fee rebate to the Fund to offset fees paid within the ETF.

During the period, the Fund received US\$0.003 million in income distributions from investments in ETFs managed by the sub-advisor to offset fees paid within the ETFs. There is no assurance that these distributions will continue in the future.

IGM Financial Inc. is a subsidiary of Power Corporation of Canada. Companies related to Power Corporation of Canada are therefore considered affiliates of the Manager. As at September 30, 2023, the Fund held the following investments in companies affiliated with the Manager: common shares of Power Corporation of Canada valued at US\$0.01 million, common shares of Pernod Ricard SA valued at US\$0.01 million. The Manager relied on the standing instructions approved by the IG Wealth Management Funds Independent Review Committee for investment in related issuers. These investments represented, in aggregate, 0.5% of the Fund's net assets.

## Past Performance

The Fund's performance information assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

## Year-by-Year Returns

The following bar chart presents the performance of Series F of the Fund for each of the fiscal periods shown. The chart shows, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Series Information*.

| <b>Net assets, end of period</b>                             | <b>9.51</b>     | <b>9.62</b>     | n/a             | n/a             | n/a             | n/a             |

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's unaudited interim financial statements and audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

(1) This information is provided as at the end of the fiscal period shown.

(2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.

(3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

## Management Fees

The Fund pays a management fee, and this fee, paid by each series, is calculated as a percentage of the net asset value of the series at the close of each business day (see *Series Information* for rates payable by each series). The management fee in Series F is used for investment advisory and management services.

Securityholders in Series F pay the Distributor an advisory fee (separate from the management fee) directly. This fee is not included in the Fund's expenses. Distribution-related services were paid for out of the advisory fee and other revenue sources.

# IG MACKENZIE U.S. DOLLAR FUND – GLOBAL EQUITY BALANCED

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2023

## Series Information

| Series   | Inception/<br>Reinstatement Date | Management<br>fee (%) | Service<br>fee (%) | Administration<br>fee (%) | Trustee<br>fee (%) |
|----------|----------------------------------|-----------------------|--------------------|---------------------------|--------------------|
| Series F | 04/19/2022                       | up to 0.75            | –                  | up to 0.15                | 0.05               |

The fee rates in the table above are rounded to two decimals.

Inception dates of the series are shown if within 10½ years.
